**DRI** is one of the world's leading manufacturers of products for Energy Recovery and other equipment for Ventilation/Fresh Air Treatment for maintaining IAQ (Indoor Air Quality).

Energy Recovery and IAQ   Evaporative Cooling Pads

**PURIFLAIR** for Compressed Air Drying

Compressed Air Dryers

**Puriflair's air drying system inaugurated**  
**VADODARA:** The newly-built compressed air drying system plant of Puriflair India in GIDC Estate of Makarpura will meet the domestic requirements of Essar, Reliance, ABB, FAG, Gujarat Refinery and other, Pahwa Enterprise Group chairman Deepak Pahwa said on Tuesday. After inaugurating the plant on Tuesday, Pahwa said, "We have already received orders worth Rs 25 crore from these companies and setting up of this plant will further strengthen our industrial air dryer and filtration product offering as well as to expand our markets and provide more value to our customers," he added. Pahwa Enterprises, which is a global player in air engineering technologies, acquired Puriflair India from SPX Air Treatment, USA (formerly Flair) which is part of a Fortune 500 company, in September 2003. Then it was a loss-making unit, now it a profitmaking unit, claimed Pahwa. He also announced the inauguration of their fourth new plant soon.

The air is changing . . . innovating for a cleaner tomorrow

# Globe Trotting !

**Bry-Air** and **DRI** were present at almost all HVAC&R shows all over the world.
