Keeping pace with changing technologies.

Causing ripples in air treatment

India ... at the heart of it all

Changing with the times.

1999

Some things don't change . . . striving for excellence today, tomorrow, forever.

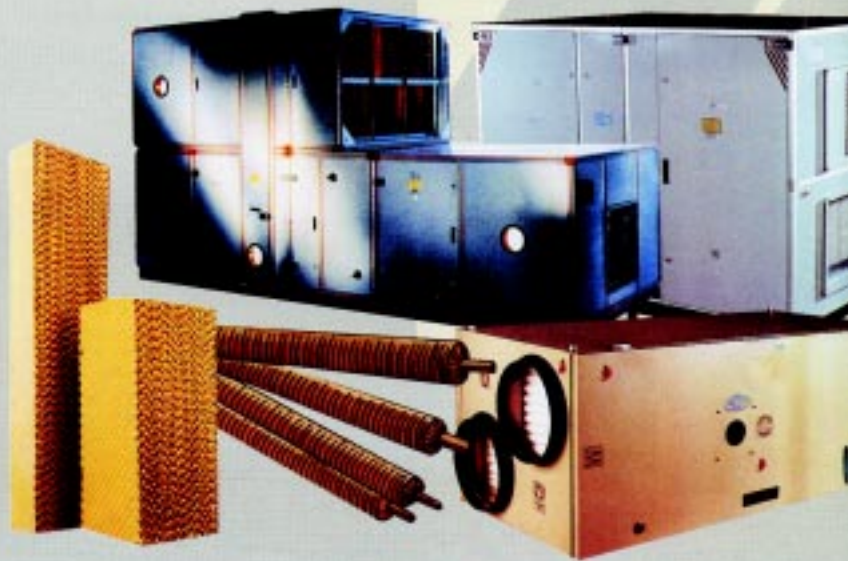

1979

WHEN IT ALL STARTED...

20 YEARS AGO, ARCTIC INDIA SALES started out by representing Bry-Air Inc. USA for its dehumidifiers in India !

In 1981, it promoted the first joint venture in small scale sector, Bry-Air India (Now Bry-Air Asia) with Bry-Air Inc. USA to become the first dehumidifier manufacturing company, east of the Suez. Today in 1999, Arctic India Sales has grown into a Group of technologically strong companies under the umbrella of Pahwa Enterprises, specializing in technologies and products with desiccants at the core in relation to air with a wide range of "airengineering" equipment, strong brands and a network spreading from South Africa to Australia encompassing Middle East, Far East, South East Asia, Indian Subcontinent, China and CIS countries with equipment being exported to over 40 countries including North America, from where it all started !

**AT THE FOREFRONT OF AIRENGINEERING TECHNOLOGIES
EACH OF THE FOLLOWING ITEMS WAS PRODUCED FOR THE FIRST TIME IN INDIA BY US**

1979
Manufactured first Rotary Desiccant Compact Dehumidifiers.

1990
The first Pulse Bed dehumidifiers of capacity of 15 cfm manufactured.

1994
The first self contained "Wood Dryer" based on desiccant dehumidification manufactured.

1980
The first Seed Dryer based on the principle of Rotary desiccant dehumidification.

1991
The "Heat Wheel" provides a fresh solution to Indoor Air Quality.

1995
The first Rotary Desiccant based dehumidification plant built for heavy water recovery for nuclear application.

1981
Heat Pipe based Heat Exchangers capable of recovering upto 80% of exhaust heat.

1996
Desiccant-Honeycomb rotors for dehumidifiers manufactured in the country for the first time.

1983
The first patented "Modular Vertical Bed" dehumidifier made in the country.

Mothballed the first Indian Naval Frigate.

1984
The Bry-Air Dehumidifying Plastic Dryer revolutionises drying concept in the Indian plastic industry.

1997
Sea Harrier and Sea King helicopter mothballed by using the concept of dehumidification for the first time.

1987
Dry Air Pressurizers for wave-guides in the telecom sector.

1992
The "Energy Recovery Ventilator" incorporating the Enthalpy Rotor addresses the problem of "Sick Building Syndrome".

Evaporative Cooling pads manufactured in the country for the first time.

1988
Addressed the problem of "mould sweating" on the plastics industry by manufacturing the first "Mould Dehumidification System".

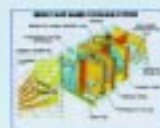

The first 400 Bar Compress Air Dryer made for Bharat Dynamics Limited.

1990
The first indigenous Flexible barrier system for preservation of military hardware tried in the country by defence.

1993
Control Panel Heat Extractor designed to extract heat from large control panels is indigenously produced.

1998
The first desiccant based cooling unit made for pilot run at IIT Delhi.

20 FIRSTS IN 20 YEARS !!! . . . Need we say more
