Bry-Air®
Air Water Generator (AWG)

Potable Water from Air
Wherever You Need It

The same adsorption science —
now sized for everyday life.

Lowest Energy Consumption
(Watt/Litre)

WATER from AIR ANYWHERE™
Bry-Air® AWG

DEPENDABLE
Create water at the point of need

SUSTAINABLE
Reduced dependence on external water sources

COMPACT
Easy to install and operate

IMPACTFUL
Supports healthier, stronger communities

Bry-Air®

Air Water Generator (AWG)

WATER FROM AIR

FOR A BRIGHTER, MORE EQUITABLE TOMORROW

Bry-Air, Air Water Generators harness moisture in the air to create safe, clean drinking water at the point of need. A reliable solution for communities, institutions and humanitarian initiatives.

BMP-55 LPD
55 litres per day

BMP-200 LPD
200 litres per day

REAL SOLUTIONS FOR A MORE RESILIENT WORLD

SCHOOLS

Safe drinking water for students and teachers.

HEALTHCARE

Water for clinics, health centres and medical camps.

REMOTE COMMUNITIES

Decentralized water for hard-to-serve locations.

DISASTER RELIEF

Drinking water support during emergencies.

RESIDENTIAL INSTITUTIONS

Hostels, orphanages and community homes.

NGO & CSR PROJECTS

Enable visible, measurable social impact.

Bry-Air® 62 *years of excellence*

For more than six decades, Bry-Air has engineered adsorption-based solutions for diverse industries, climates and applications. Today, that expertise extends to atmospheric water generation — bringing water closer to where it is needed.

ENGINEERING
WATER INDEPENDENCE

Bry-Air®

Bry-Air's Air Water Generator (AWG) is a modular industrial-scale system that produces potable water from ambient air using desiccant rotor technology and a high-efficiency heat pump-based regeneration process.

HOW THE MOISTURE PUMP WORKS

The system is containerized, modular, scalable, and designed for continuous unattended operation and powered by patented technology engineered to deliver industry-leading energy efficiency, achieving the lowest watts-per-litre performance in its class.

RANGE-SCALABLE FOR EVERY NEED

SMALL
(Litres per **day**)

55 LPD 200 LPD

MEDIUM
(Litres per **day**)

1,000 LPD 2,000 LPD

LARGE
(Litres per **hour**)
13,778,899 litres/year

BMP-200 LPH BMP-400 LPH BMP-1,600 LPH

FEATURES

- Lowest energy consumption: 350 -400W/Litres
- Rated for 27°C | 45% RH | 10g/kg moisture
- Save up to 50% energy with waste heat integration
- 10-15% higher water output using advanced materials
- Powered by Patented Adsorption Technologies
- 2X water output at higher RH levels

WHY USE BRY-AIR AWG?

- Reduces dependency on tankers and bottled water
- Enables predictable water costs
- Ideal for remote and water-scarce locations
- Supports sustainability and ESG goals
