Show Time

AHR EXPO'99 - Chicago

It was a 'roller coaster' of a Quarter with trade show participations and seminar across 3 continents . . . 5 countries - India, Singapore, China, USA and Germany.

We were "floored" by the overwhelming response at our booths and presentations. We bring you a 'Snapshot' review !!

The Show goes on...

Look out for our booths at

ASEANPLAS'99 - Singapore

CHINA REFRIGERATION'99 - Beijing

IAQ Seminar'99 - Delhi

ISH'99 Frankfurt

October 1-5, 1999
Pune, India

October 26-29, 1999

Messers : Bry-Air LTD, CO./ India
Attention : Mr. Sanjeev Sach deva

Dear Sanjeev,

Allow me to extend my thanks, and satisfaction to the two dehumidifier units installed here at Hayat Pharmaceutical industries under the models MVB 30c roughly 3 years ago. During these years we had encountered minor problems from said units.

The simple design and the Hi-degree of maintainability kept these units running at almost trouble free condition, and when compared with other AHU,s (other manufacturer). Bry-Air units were ranked first to us in terms of performance and low down times. These units had reached for example R.H.% of 9% and better. To summed it all, we at Hayat Pharmaceutical are technically satisfied from the output that Bry-Air had delivered to us over these years.

Best wishes to the personnal of Bry-Air company, and hope to look forward for any mutual benefits in the future.

Best Regards,

Ghasan Kurdi.

Bry-Air EGGPLAST

MOULD TEMPERATURE CONTOLLERS ... BTC SERIES

Designed and engineered to provide precise temperature control, the Bry-Air Mould Temperature Controller is a perfect match for your Plastics Moulding Machine.

The new Bry-Air Mould Temperature Controller is designed to maintain constant temperature of mould used in injection moulding process and esures:

- Increase in product efficiency.
- Final glossy finish to product.
- Reduces product shrinkage.
- Eliminates product weld line.
- Provides product consistency.

Bry-Air EGGPLAST

VOLUMETRIC DOSERS ... BVD Series

Bry-Air Volumetric Doser assures thorough and accurate dosing and blending of virgin

matrial, regrind material, additives, fillers, and master batches.

**We have it
all at the**

Dry Air on "Rent"

WHY DO YOU NEED DRY AIR ?

The need for "dry air" of humidity control is known to all. Over the years, we have been reaching out to you with Dry Air stories the *Dry-facts*, our quarterly newsletter.

There are many industrial processes and manufacturing procedures which require close control of the humidity conditions to ensure product and process quality. Typically, humidity control or dehumidification is necessary to :

- Prevent corrosion
 - organic and inorganic.
- Control or retard microbial growth.
- Reduce storage losses.
- Ensure quality processing and packaging.
- Restore damage caused by water.

WHERE DO YOU NEED DRY-AIR ON "RENT"?

Some core areas where you need dry air on rent for optimum results include :

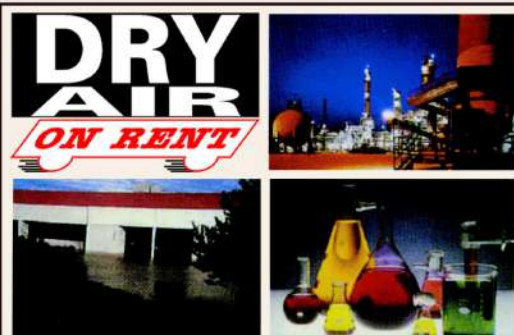

- Blasting and Coating Process
- Water Damage Restoration
- Pharmaceutical Manufacturing
- Research Activities
- Process Industry
- Marine Industry
- Storage Warehouses
- Packaging Process
- Petrochemical Tanks
- Power Plants

THE BRY-AIR SOLUTION

Bry-Air is always devising ways and means to support you better for your "**dry-air**" needs ... whether it is for a short time (temporary) or a long term (permanent) need.

To support you for your short term needs

Bry-Air has launched ...
Technical Drying Services (Asia) Pvt. Ltd.

WHY DO YOU NEED "DRY-AIR" ON RENT ?

The need for dehumidification, to control the ambient conditions, in research, production, processing and packaging industry has been recognized for long. However, some time the need to control humidity is short term. Typically, the need for dehumidification for short-term may be due to any one of the given reasons ...

- To postpone Capital outlay.
- To tackle seasonal/ temporary or an immediate requirement.
- To try and test the suitability of the equipment and process, before purchase.
- To fulfill specialised needs like Special Drying chamber for small objects like Wood Handicraft items, Flowers and others.
- To maintain special ambient conditions in storage containers and warehouses.
- To restore damage due to floods, water seepage, pipe leakage etc. and many others.

TDS will provide "dry air on rent" round the clock for your short term drying problems.

To effectively address your short term and temporary dehumidification needs, "**in real time**", at TDS we have adopted a pioneer approach of "**Round the clock**" service.

We shall be available to tackle your humidity problems **24 hours a day, 7 days a week**, backed by years of experience and top-of-the-line equipment and tools.

(Currently the services offered by TDS is available only in India. However, we will soon be expanding our sphere of operation.) And ! Of course, for your long term dry air the Airgineers at Arctic India Sales and Bry-Air are always there.

Bry-Air

IN THAILAND

In line with our philosophy of "being never too far" from our customers, Bry-Air has opened a full fledged Representative's office in Thailand.

The Bry-Air office now provides quick and effective support to the market, complimenting the support provided by Global Tech, Bry-Air's agent in Thailand.

Global Tech, headed by Mr. Totsapon Santitewagun, is a leader in pharmaceutical clean rooms and airconditioning, which compliments the Bry-Air range of products.

Bry-Air has many prestigious installations in Thailand

- Thailand Princess Library
- Thai Army Pharma Factory
- Medicap Ltd.
- The Boots Manufacturing
- TV Station Channel
- Shangri-La Hotel
- Carsberg Beer

So get in touch with Global Tech - Bry-Air office today for your dry air needs.
