Pahwa Group's Support to Disaster Relief

General Health Camp

Dr. Mathra Das Pahwa Vision Outreach Program

Padam Shri, Rai Bhadur
Dr. Mathra Das Pahwa
(1880-1972), the grandfather of **Mr. Deepak Pahwa**, was a renowned eye surgeon who had spent his life working tirelessly in the fields of education and vision. He had set up many charitable institutions and had performed half a million of cataract surgeries in his life time.

We are striving to carry forward his work.

Bry-Air and **DRI**. have been organising eye camps to prevent the blindness. Eye camp provides free diagnosis and treatment at their doorstep, Free spectacles & medicine are distributed and free of cost cataract surgeries are performed at Venu Eye Institute & Research Center, New Delhi.

Total 59 Eye Camps have been organized till date

Tree Plantation

Water Harvesting

Spreading Awareness

Gum Guggul Medicinal Forest

A **Gum Guggul Medicinal Forest** at Sanjay Van was inaugurated. The aim is to revive native trees in Sanjay Van

Hygiene & Sanitation Initiatives

To create sanitation and drinking water infrastructure for promoting Swachhta

Total people touched till date : 5200+

DRI...Desiccant Rotors International has established the **DRI Udaan Community Water Center**- **CWC** at Kaduki village, district Alwar, Rajasthan.

The 1000 LPH capacity RO water treatment system provides clean drinking water to over 1200 people, about 250 families in and around Kaduki village to ensure water borne diseases are controlled.

After a huge success of "DRI Udaan CWC", DRI is also establishing new CWC at Chillarki and Haliyaki village, Gurgaon.

DRI Toilet Construction Project

DRI in partnership with Sapna NGO has constructed 20 toilets at Kaduki village, Alwar, Rajasthan to Promote Swachhta.

Mission Sanitation in Schools

A toilet block is being constructed at Govt. Girls Secondary School, Dyalpur, North East Delhi.

Hygiene Awareness

Workshop on "How to wash hand properly" conducted at Bry-Air and DRI Pathshala through interesting activities. Basic knowledge of germs, diseases, hygiene and sanitation behavior, safety measures were shared with children.
